Presidents Corner

By Les Kern

The fishing is slow to say the least on the Pacific side of Baja and really slow in our area, but the fishing is great in the sea of Cortez. I just talked to Andrea Velez who is our guest speaker for our next meeting (Sept 1st) and she said the weather is beautiful and the fishing is great. Andrea will be presenting a visual look at their fishing trips from San Felipe. They have redone the ERIK and also have a Catamaran that is available in 2011. The plan is pretty much the same as Tony Reyes and they fish the Midriff islands also. So if you want to go on a trip that won't turn into a long boat ride or coastal rock fishing, this is the one. I have been there twice and have loaded my cooler to the brim each time. The price is about the same as our last trip on the Tony Reyes. See you at our club meeting and say hello to Andrea.

As you can see from the trip report below we have rescheduled our August Pacific Dawn trip to the first Saturday in October. Because of this change there are a few open spots available on the rescheduled trip. With the weather and the water finally warming up this trip has the potential to become a tuna trip. If you're interested grab up the few open spots quickly.

NEW TRIP ADDED

We have added a new trip to our 2010 schedule. We have booked the PACIFIC DAWN for a fall trip out of Ventura landing. This trip may fish the Channel Islands, rock cod or even tuna depending what offers the best opportunity for catching quality fish. We have booked a trip that fishes on Sunday so we will be driving up to Ventura on Saturday and not get caught up in the Friday night traffic leaving L.A. This is a opportunity to fish an area that doesn't get hit as hard as the fishing grounds in the San Diego area, you will also notice that at \$165. The trip is considerably cheaper than trips out of San Diego. The trip goes in 2 months so sign up quickly

Pacific Dawn Trip Report by Rex Routt

The "bad" news is that the August Pacific Dawn trip was cancelled. The "good" news is that the Pacific Dawn trip has been rescheduled for Sat Oct 2, 2010. As all who follow the fishing reports know, fishing has been terrible. Overnight boats have been doing what 1/2 and 3/4 day boats do, fishing onshore for calico bass. When we arrived at the landing Saturday night we asked owner/operator Pat Cavanaugh what his plan "B" was to make our overnight trip more than an overpriced 3/4 day trip. Pat honestly answered that he had no plan B, C, D or E for that matter. Thanks to the weather and the Navy San Clemente was out and fishing up or down the coast was terrible and the quality if the fish being caught was not good. Pat said the best thing he could do for our club was to offer to let us reschedule the trip to later in the year when conditions would hopefully improve. We did.

In checking the reports for Aug 14 & 15 all that the overnight boats got was assorted rockfish. Been there done that!

Surf Fishing Derby Report by Vince Ramirez

Thanks to all who came out for the Surf fishing Derby. We had 18 fishermen, 12 members, 4 relatives of members and 2 guests. Conditions were sunny, no wind, warm and very light crowds and the fish were biting. There were lots of surf Perch and Corvina caught, everyone caught fish. 1st place went to **Jim Padilla**, 2nd place to **Vince Ramirez** and **Joe Ramirez**, Vince's father, took 3rd. Jackpot winner was **Steve Berczik** with a 26" Shovelnose Shark, no other fish was entered so there was no 2nd place.

A special thanks to Baja Fish Gear for donating gift cards to the Derby, 1st, 2nd & 3rd place winners all got them.

GENERAL NOTES

We have not included license fees, California or Mexican, in most of our trip costs, the Constitution is the one exception. Each fisherman will be responsible for his own license fees. For trips out of San Diego going to fish in Mexico the license fee will be collected on the boat before departure.

ISWAC 2010 FISHING SCHEDULE

TRIP	LEAVE	RETURN	BOAT	LOAD	PRICE	LANDING	TRIP CHAMPION
